Operative Tools

within the Context of the EUFam's Project

State of the art

Fragmentation of the relevant rules in several Regulations

Fragmentation of the dispute before various MS courts

Difficulties in coordination

Specific needs addressed

To assess the effectiveness of the functioning «in concreto» of the relevant Regulations

To identify possible paths to improve the effectiveness

Analytical activities aimed at assessing problems in application arising from fragmentation and at proposing improvements

Operative tools aimed at

- Facilitating the dialogue between operators
- Assisting legal operators and, ultimately, end-users in the use of the Regulations

Operative Tools

Model Protocol for the Cooperation among Judges

**Identifying provisions and situations
which may benefit from any form of judicial cooperation**

Table A: listing the relevant rules and the relative documents that may need to be the object of a communication for a proper application of said rules

Table B: providing an issue-oriented list of situations where information from other MS court(s) may be necessary for a proper application of the relevant rules

**Supporting judges in getting the information they need
for smoothly and effectively managing the cases through the Regulations**

**Guidelines on the direct
communication between
judges**
